

Github documentation

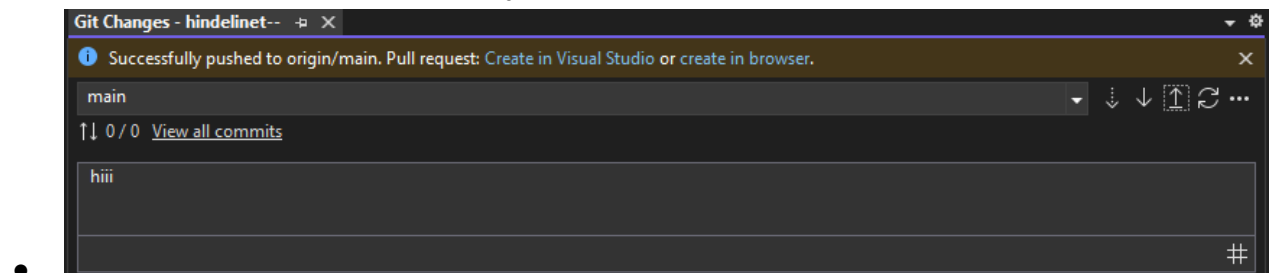

-
- 1. nimeta repo
- 2. vali koht kuhu see salvestub ja kas sa tahad readme-d
- 3. siis git ignore

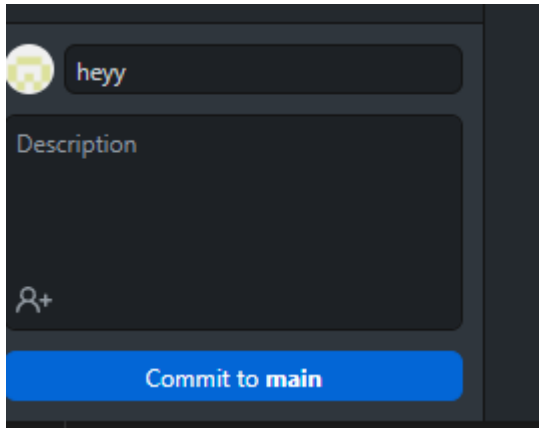

4. loo repo

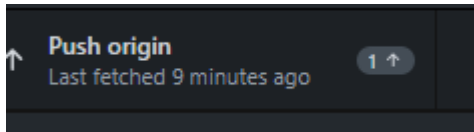

vali repo-sse/branchi kuhu see project läheb

lisa kommentaar, vajuta commit all ja nool üles

- desktopis saab ka seda teha

- vajuta seda, et repo saaks uuendada githubis
